National Garfield the Cat Day

A redheaded, sarcastic, lazy, lasagna-loving cat who hates Mondays. He enjoys eating, sleeping and watching TV. In addition, he hates exercise and diets. Have you guessed yet who I am talking about?

"Garfield" is an extremely popular comic strip created by Jim Davis. Originally, the comic was titled "Jon" and the main character was the owner of Garfield. However, the author later changed the comic's title to "Garfield".

National Garfield the Cat Day is celebrated on June 19, as the comic strip premiered on June 19, 1978. On this occasion, there are often competitions in schools and even screenings of films about Garfield. And if you would like to celebrate this holiday at home - why not make lasagna that day?

The picture shows Garfield holding his favourite dish - lasagne.

THE ABSURD IN THREE PARTS

Once upon a time, the Froggy Republic split into various kingdoms. The one which stood right next to the front door was Kingdom of Gorące Psy. They were waging hundreds of wars (they had to, everyone was jealous of their might). Multiple coalitions against them made this fight impossible to end. The draw seemed perpetual. And then a tragedy happened: The king, Czosnkowy the Sauce died. So a new power had to arise.

And the son of his, Amerykański the Sauce was chosen the new ruler. Amerykański hadn't finished any war academy as his siblings had done. But he was the eldest one. This was a true disaster. Gorące Psy felt the state was coming to an end. And then a miracle happened. After Amerykański had gone asleep, he began to dream about the situation. Suddenly Rum the Bod, the patron of Kurczak w Tortilli z Mieszanym fell off the sky. He turned to the king and said "Follow me and I will lead you to victory". Amerykański the Sauce woke up and regained self-confidence, gave orders to all troops he still had. They annexed each state: Batony, Żelki, Energetyki etc.

And then, 3rd-graders from the nearest elementary school came. They bought all gorące psy and they devoured them. Even the brave ruler Amerykański the Sauce. What's the moral then? If you eat someone (or something) it does not mean you won't get eaten!

This incredibly simple image depicts the king Amerykański, terrified after a battle.

Kacper Guziak II e

"Back to the past?"

DeLorean DMC-12 with open door

New DeLorean

Would you like to travel 40 years in time? If yes, you will have an opportunity to do so in August. But wait, what am I talking about?! About the comeback of the DeLorean.

At the beginning, let me tell you a few words about the Delorean Motor Company. The creator of the car was the American entrepreneur John DeLorean. The only car produced by him was DeLorean DMC-12. It was designed by the Italian designer Giorgetto Giugiaro and was produced for two years. It had a trunk in front and Gull-wing doors. Unfortunately, the car wasn't a big success in those times. It was due to high costs of production and technical issues. In 1982 the company collapsed.

The company and its owner would have been forgotten, but a miracle happened. The car was used as a base for the time machine from the trilogy "Back To The Future". Thanks to that, DeLorean has been popular and nostalgic to these days.

The car was about to return many times but all attempts failed. But this year it will finally happen! About two and a half months ago there was a trailer of a new model and on April 4th we saw a photo of its back. At this moment we know that it will be powered by electricity and will have doors, similar to the previous model's ones.

In my opinion, this car is going to be a "bull's-eye"! That's because of its power system and design. The only disadvantage of the announced model is the fact that it's going to be a sports car. It will be expensive. Despite that, I cannot wait to see new DeLorean. I hope it will be fantastic.

Dominik Mierzwa 2E

„Music in difficult times”

On 2nd May the premiere of a new version of the song "2Step" by Ed Sheeran took place. This time the artist appeared with the Ukrainian band Antytila, whose musicians are currently fighting. Nevertheless, they managed to write a text and record their parts. The music video was also created. Antytila is one of the most popular Ukrainian bands. After the outbreak of the war, they released an album, now they are very involved in helping their country. When they heard about a charity concert in Birmingham, they immediately reported to take part, remotely, straight from the defended Kiev. Ed Sheeran submitted a similar proposal on Tiktok. Although finally the concert organizers did not agree to their occurrence, to avoid military connections, Ed Sheeran spoke to them with a proposal for cooperation. Topolia the frontman of the band in the new words of the song "2step" says how the war began for him and his relatives and for millions of Ukrainians. Working in the recording studio in Hostomel, in which they usually worked, was not available because of the occupation. However, they found others, and the ready material returned the Sheeran team in just two weeks from the moment of receiving the cooperation proposal. Then, a video clip was partly made in Kiev and on the road to Kharkov, using a GoPro camera. It lasted only 15 minutes. The music video on YouTube was watched by over 1.5 million users within two days. Over the next year, profits from the views will be forwarded to power the account of the Music Saves UA initiative, supporting Ukrainian civilians injured by the war.

Agnieszka Twardowska kl.IIe

The photo is divided into two parts.

On the left there is Ed Sheeran smiling. He is wearing a black t-shirt and a blue shirt. On the right there is Antytila band (five young men in elegant suits) against red background.

In the photo there is a young boy with short brown hair and a white shirt with a bow tie. His eyes are closed and his head is turned to his left. In the background you can see the balconies of the theater audience and lights

Story

I was at the train station behind which there was a small hill where children used to play. Nowadays, they're less creative and they don't see the hill as a castle or something like that. I used to see it this way. A well-worn path led to the top. The green of the area gleamed in the light of the summer afternoon sun. I felt that I was in a dream. It was strange, so surreal. I'm not sure if it was beautiful. Rather intriguing.

I closed my eyes and heard the dogs barking. The sounds disturbed me a bit, as I couldn't see animals anywhere. They weren't there. I looked around. I noticed two figures standing on the path. I was convinced that they hadn't been there a moment earlier. I looked at the tracks and then back there. Yes, there was someone standing there. Suddenly, I heard the voice of an old woman. I was alone at the station and the silhouettes, which appeared out of nowhere, were too far away for me to hear. Additionally, so loud and clear. "Ha ha ha," I heard again. After a few seconds, again. It just seemed to me that that sound was getting closer and closer...

It turned to a scream. Even the passing trains weren't that loud. But there was still no one... except for the still shadows on the way to the top of the hill.

"Ha ha ha!", it hissed in my ears for the last time. What was that, anyway? I looked down the path. It was empty there. That was weird.

I looked west to see if the train was coming. It wasn't coming, still empty. I turned back to the hill. An elderly woman with white hair and a wrinkled face was standing in front of me. She looked about a hundred years old. She wore a long black dress. It looked like a mourning gown. She didn't have one eye, and blood was shedding from the empty space. She smiled, revealing yellow, cracked teeth. Blood was dripping from them, as well. I wanted to ask her who she was and what happened to her. I didn't get a word out. She pounced on me. I thought I saw that scene from two perspectives. At the same time, I was a victim and a witness to the incident. But where was I? How and when?

To be continued...

Helena Owczarek

Illustration by S. Wiśniewska

The graphic consists of three pictures. On the left side there is an old woman, described in the story, reaching out for her victim. She is wearing a long black dress, a necklace, and long white hair. At the top right there is a close-up of the frightened person's eye, reflecting the silhouette of an old woman. Below there is presented the face of the narrator of the story. She is scared, she covers her face with her hands, one eye is visible. The illustration is presented in black and white comic style

The man with two faces

Have you ever heard of a man with two faces? Well, the protagonist of 'The Strange Case of Dr. Jekyll and Mr. Hyde' is a London lawyer who investigates the strange relationship between his old friend, Dr. Henry Jekyll, and a weird man, Edward Hyde.

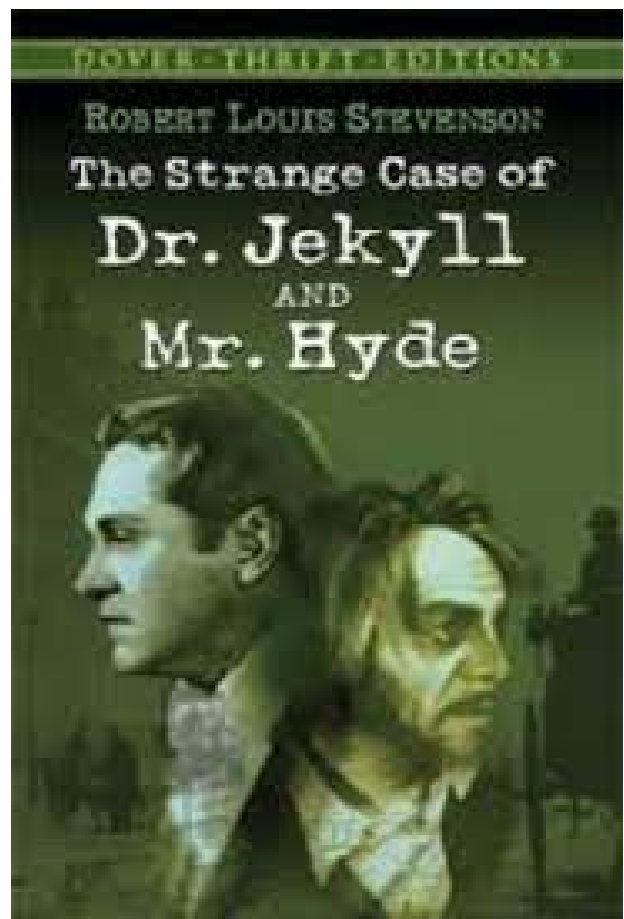

Dr. Jekyll, a respected London doctor, discovers the secret of a character-changing potion. Under the cover of night, he becomes Hyde's horrific murderer. What is the fate of a man trapped in a dual personality? What is his way out of this situation?

Robert Louis Stevenson, the author of this book, was fascinated by the duality of human nature and decided to portray it in such an original way. The idea for the book came to him in a dream. When he woke up, he already had several scenes ready. However, the writer burned the finished manuscript due to his wife's critical remarks. However, he recreated it a few days later. The book was published in pamphlet in 1886, and after a positive review in 'The Times', it began to sell at a staggering rate. Today the book is an absolute classic of the genre, which I recommend to every reader.

Yorkshire and Mary

Have you ever heard of Frances Burnett? If you wanted to know, she is a British novelist and drama writer. Her most famous book is 'The Secret Garden'. It is an amazing story about nine-year-old Mary Lennox. The girl comes to England from India. After the death of her parents she becomes selfish and has outbursts of anger. She is lonely and bored

in her uncle's house in Yorkshire. The building is old and huge, most of the rooms are locked. The little girl has nothing to do all day, no one talks to her except Ben, who is an old gardener.

At Uncle Mary's house, she meets the lovely maid Martha and her brother Dick. She manages to find the key to a locked part of the garden and gets in. She also discovers another resident of the mysterious house Colin, Uncle Archibald's son, who believes he is terminally ill. His mother died in childbirth and his father blamed the boy for his wife's death.

The picture shows a girl holding a key, a woman in a purple jacket, a man's head, two boys and a dog. The child was ill from an early age and the father was afraid that his son might die too. The boy lies in bed all the time and is convinced that he is very sick. He bullies the servants and gets hysterical easily.

One day Colin meets Mary. Will the boy, under her influence, finally begin to enjoy life? Will his father treat him better?

If you want to find answers to these questions, you should definitely read 'The Secret Garden'.

Barbara Morón, III AC

A Christmas memory

The book 'A Christmas Carol' by Charles Dickens is educational. It teaches us that anyone can change although it takes hard work. Would you like to find out about it?

The main character of this book is Ebenezer Scrooge. He is a stingy man with no feelings. Money is the most important thing for him. He rejects everyone who is kind and helpful to him, especially his family. After the visit of the three ghosts of Christmas, he understands his mistakes. He becomes generous, helpful and enjoys the happiness of other people.

The book also shows the wonderful attitude of other people towards Scrooge. He treats his friends unfairly, but they give him a chance, hoping that he will change.

This novel is a good example of the true atmosphere of Christmas. Christmas is not only about beautiful decorations, delicious food and expensive presents, but most of all it is about time spent with family. This is why loneliness at Christmas is the worst. It is the loneliness that makes Scrooge rethink his actions and change them.

The events shown in the book make you realise that you can change at any time and become a better person. I encourage you to read this wonderful novel. I personally enjoyed the book very much. I hope that after reading this article you will reach for it soon.

Gala's Team, III B

I can see the word CHANGE in the picture.

AMERICAN DREAM

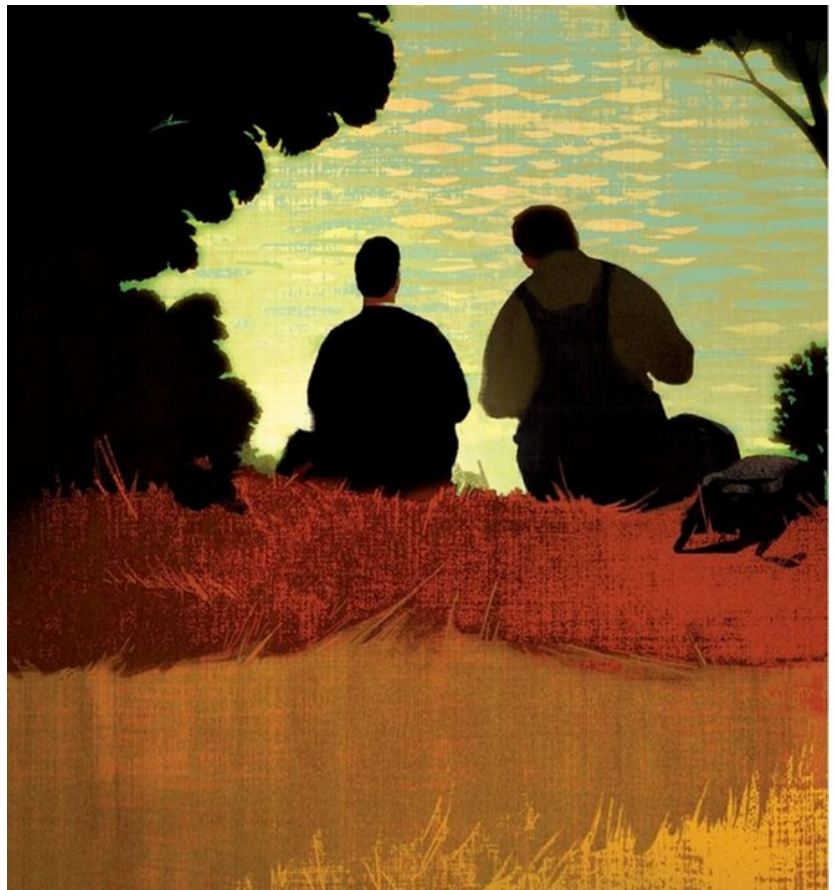

It is difficult to find a good book these days. Of course, there are some that are memorable, but they are rare. However, recently, thanks to an English lesson, I got to know one of them, and it is John Steinbeck's book 'Of Mice and Men'.

The author of this book was the son of a miller and a teacher. He studied the humanities but never graduated. He moved to New York and it was there that he tried his hand as a writer. He gained fame with his collection of humorous short stories 'Tortilla Flat'. Two years later he published 'Of Mice and Men'. His reportage 'Once There Was a War' and some novels were poorly reviewed by critics. Nevertheless, he was awarded the Nobel Prize in 1962. After that he did not write any more novels. Steinbeck died of a heart attack in New York.

Steinbeck's novel 'Of Mice and Men' is a depressing story of two close friends. They wandered through the California ranches in search of work. It was a difficult time after the First World War, and the crisis particularly affected farmers and ranch owners. It led to debt and forced farmers to migrate in search of temporary work. Despite the adversity, the main characters tried to find their place in the world.

All in all, I highly recommend reading this book, as the development of the plot also makes you think about the choices made by the characters and thus their actions.

What is dogfrisbee?

Dog sports exist!

A lot of people and dog owners have no idea that dog sports exist. There are many kinds of activities that we can do with our dogs. What's more, there are competitions where teams (human and dog) compete with each other. The most popular dog sports are dogfrisbee, agility, dogdancing and obedience. However, I'd like to concentrate on dogfrisbee.

Disc dog, commonly called dogfrisbee is a dog sport that involves throwing a plastic disc by a human and catching the disc by a dog. The dog should be fast, focused and well motivated. Human must have a good throwing technique to make the disc fly far and straight.

Probably, many of you are wondering how to start your adventure with disc dog. It's very easy! All that is necessary to try it, is a large area, a dog and a flying disc (you can buy them on the Internet).

In the beginning, you need to practise throwing the disc. If you learn to throw well, the dog will catch the disc. But if the dog doesn't want to catch the disc, you should go to a trainer who will help you solve the problem. There are several dogfrisbee trainers in Poland. There are also many courses on the Internet „How to start training dogfrisbee?”. This should help!

The picture shows my dog catching the disc in flight.

Dogfrisbee competitions are organized several times all over the world. In Poland, it usually takes place in a large city such as Warsaw, Wrocław or Gdańsk. The competition is divided into a few disciplines. For example, Frizglity is the discipline in which the dog has to overcome three obstacles and catch the disc. Another interesting discipline is freestyle. It consists of making a set of various figures and throwing techniques. The music sets the rhythm to the whole performance, which is limited in time to two minutes. The handler must create a good team and connection with dog.

See it for yourself!

This year, the dogfrisbee world finals will take place in Citadel Park in Poznań. This is a unique opportunity, because the best teams from all over the world will come to Poland! The event will start on September 16th and it will last 3 days. Free entry to all who wants come and see the live performance. Everyone is welcome!

THE OLD GANG AND THE ARISTOCRAT

Have you ever heard of 'Oliver Twist'? It's a great book by Charles Dickens, set in England: first in a provincial town and later in London. The time of the action is not specified, as the narrator considers it unnecessary.

Oliver experiences many different difficulties in his life. When Oliver, dissatisfied with a small meal, asks for more, he incurs the wrath of the caretaker. At his request, the centre's management decides to get rid of the boy and sends him to the undertaker. As Oliver cannot stand the ridicule of his dead mother, he gets into a fight with another assistant of his employer and is severely punished. A sense of injustice pushes the boy to leave his new home.

Oliver flees to London, where he meets a boy. The friend helps Oliver find a new refuge. Unfortunately, Oliver's new friends are thieves who want him to become a thief too. During one of his criminal actions, Oliver is caught, but only gets a warning.

What will Oliver's future look like? Will the fact that his colleagues forced him to break into the house of a rich woman change his life?

What role will a disgusting man he meets play?

Will Oliver get the chance to change his life?

If you want to know the answers to these questions, I recommend you read this touching novel.

Litwos

Have you ever heard about Henryk Sienkiewicz? I am sure you have. But if you are taking the Polish matura exam this year, I would be happy to give you some useful information about Henryk.

He lived in the second half of the 19th century. His mother dreamt of him becoming a doctor, but he enrolled at the University of Warsaw at the Faculty of Law, Philosophy and History. However, he did not complete his studies and began working as an editor. He started his work with journalism, literary and historical sketches and short stories that responded to problems at his homeland and abroad.

He travelled a lot. The evidence of his travels are his letters. He sent not only correspondence, but also novels from different places of his stay.

After returning to Poland (at the age of 35), he married Maria Szetkiewiczówna. He had 3 wives and each of them was named Maria. They were Maria Babska, Maria Romanowska, Maria Szetkiewicz.

Sienkiewicz became famous mainly as the author of historical novels: *Ogniem i mieczem*, *Potop*, *Pan Wołodyjowski*, *Quo Vadis*, *Krzyżacy* and *W pustyni i w puszczy*.

Sienkiewicz is one of the most popular Polish writers in the world.

He gained international fame with his novel *Quo Vadis* and the Nobel Prize for lifetime achievement.

Patrycja Zawada, 3b

The picture shows Henryk Sienkiewicz wearing a black jacket.

The story of a brave orphan

'Jane Eyre' is a novel written by Charlotte Brontë. It was first published in October 1847 in three volumes and was a great publishing success. Have you ever heard of this novel?

The novel depicts the life of Jane Eyre, an orphaned girl raised by Mrs. Sarah Reed, her uncle's wife. Both her aunt and her three children hate the girl. At the age of 10 Jane is sent to study at Lowood Division, where she spends eight years. For the last two years she works in the department as a teacher.

Later she decides to leave school and places an advertisement in the press that she is looking for a position as a governess. She takes a job at the estate of Mr Edward Fairfax Rochester. She becomes the teacher of Adele - as it later turns out, the daughter of the former mistress of the master of the house.

After some time Jane becomes Mr. Rochester's fiancée. The planned wedding does not take place, as it turns out that Mr Rochester's first wife, Bertha Mason, is still alive. She lives at Thornfield Hall and is insane.

What is the further fate of Jane? What decision does she make when she discovers the truth about her fiancé? Who are the mysterious siblings she meets on her way?

If you are curious about Jane's further fate, I recommend reading the book.

Patricia Zawada, 3b

Fate or Free Will?

Money contributes to improving a person's life. They give the opportunity to develop or fulfil dreams. But do you think that money can bring bad luck and that having a huge fortune can have many negative aspects? If not, then I must tell you a story from John Steinbeck's book 'The Pearl'.

The novel tells the story of a family that leads a happy life despite poverty. One day the peace is shattered. Coyotito, son of Kino and Juan, is stung by a scorpion. His parents take him to a doctor, but they have no money to pay for the treatment. Kino sets out to find a pearl as payment. When the man finds the pearl, it seems that their problems have been solved.

Kino starts bragging that he caught a pearl. Will he thus draw people's attention to himself and put his family in danger? Will people start attacking Kino and force his family to flee? The ending is a surprise and you will know it after reading the book.

All in all, it seems that money can bring bad luck. While it is an integral part of the world that gives us many opportunities, it can also bring misfortune and expose our worst flaws. But after all, everything is for people, right?

Pearly Haired Girls, III AC

CONTROL OVER EVERY AREA OF LIFE

George Orwell was a British writer who wrote books such as 'Animal Farm' and '1984'. The book '1984' is particularly interesting because it deals with the enslavement of normal people by a government that follows them in every area of life.

The main character is Winston Smith, who is thirty-nine years old and works for the Ministry of Truth. He is an enslaved man whose life is watched every day by Big Brother. Smith hates the party and tries to fight against it. It is illegal to have a diary in a country controlled by Big Brother, but that does not stop Smith from having one.

What does his diary contain?

What does he draw in it when the cameras are not looking at him?

Can writing a diary get a man sent to prison?

Smith wants to get into a party that is against Big Brother. He is trying to show his resistance.

How will his attempt to resist the government end?

If you are curious, I encourage you to read the book '1984'.

Silas P. Silas, III AC

The image shows a blue eye.

Common Sense or Feeling?

Have you ever heard of Thomas Hardy? Have you ever read his poetry and novels? What is the first thing that comes to your mind when you hear about Tess of the d'Urbervilles? I will try to introduce you to these characters.

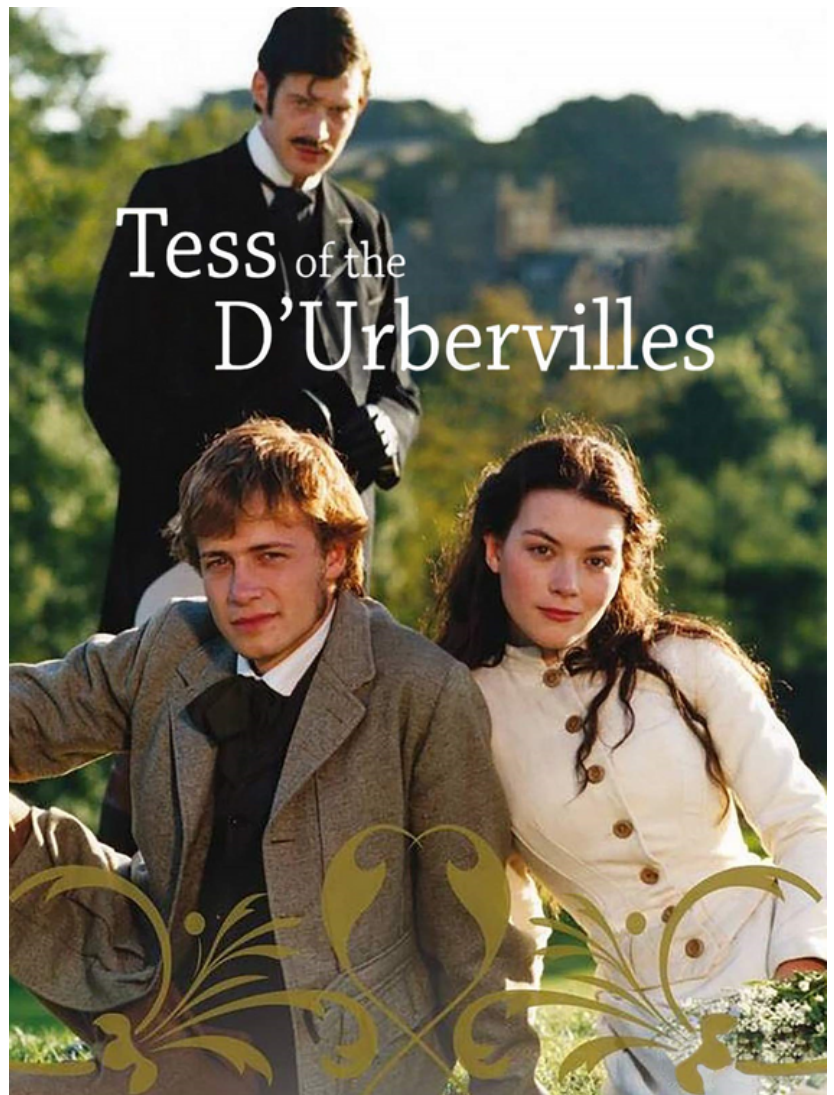

Thomas Hardy was born in 1840 in southern England. He began writing when he was twenty-two years old. Publishers did not want his poetry, so he turned to novels. Hardy's novels describe rural landscapes. Most of his short stories are set in Dorset, where he was born. The inspiration for Hardy's writing came from the experience of living in the countryside. He wanted to describe people and problems as they existed, up to their tragic end.

'Tess of the d'Urbervilles' was published in 1891. It described the life of poor country people. The novel was criticized for its tragic ending.

Tess was a young girl who had to leave home to earn money for her family. She felt obligated to do so. Wasn't Tessa the epitome of kindness? Didn't she always accept whatever fate brought? She began working for her supposed relatives, and she fell prey to a seductive cousin. She was cautious, but not cautious enough when a rich man said he loved her.

All in all, if you want to know more about Tess, you absolutely should read this novel. This book is one of the most sensitive stories I have heard.

The Music of The Butterfly, IIIAC

The picture shows a young man and a young woman sitting, with a man in a suit standing behind them.

Expedition into the unknown

We all have a dream travel destination, but sometimes it is not possible to get there. A trip to Antarctica is beyond reach for many. Thanks to a book like 'The Coldest Place on Earth' written by Tim Vicary, we can imagine such a trip. Are you one of those people who are fond of travelling to frosty areas of the world? If so, this book is perfect for you.

Antarctica is an extremely cold place on earth, where the temperature is below - 80 degrees Celsius. The conditions there are very difficult and you have to be very brave when deciding to go there.

In 1910, the English and Norwegians began their race to reach the South Pole. When they reached Antarctica in their boats, they had to face very difficult weather conditions. It was even more difficult for the animals they took with them on their boats to survive there. The men moved through the snow on skis and on special sledges. Day by day, the journey was made more difficult by the constant changes in temperature, fog, storms and the men's reduced strength. Unfortunately, not everyone managed to survive and return home.

Such journeys are for people who are resilient and aware of the risks.

If you want to find out who won the race to reach the South Pole, this book is a must.

The Team of Bookworms, 3b

The picture shows two people in a canoe with a large iceberg behind them.

The story of a young officer

Have you ever heard of Joseph Conrad? Joseph was an English writer of Polish origin. He always wanted to go to sea, so at the age of sixteen he enlisted on a French ship. He began the life of a sailor, travelling to many wild and dangerous places. During his long sea voyages he began to write. One of his best-known books is 'Lord Jim'.

The main character of the novel 'Lord Jim' is Jim. When he was young, he dreamt of becoming a sailor. Do you think his dream came true?

Well, one day he set sail as first officer of the ship Patna carrying pilgrims. Unfortunately, the ship started to sink and the crew abandoned ship without informing the passengers.

Initially Jim was the only one who wanted to help and save the pilgrims. However, at the last moment he gave up and saved only his life.

Did Patna sink? Were the pilgrims saved?

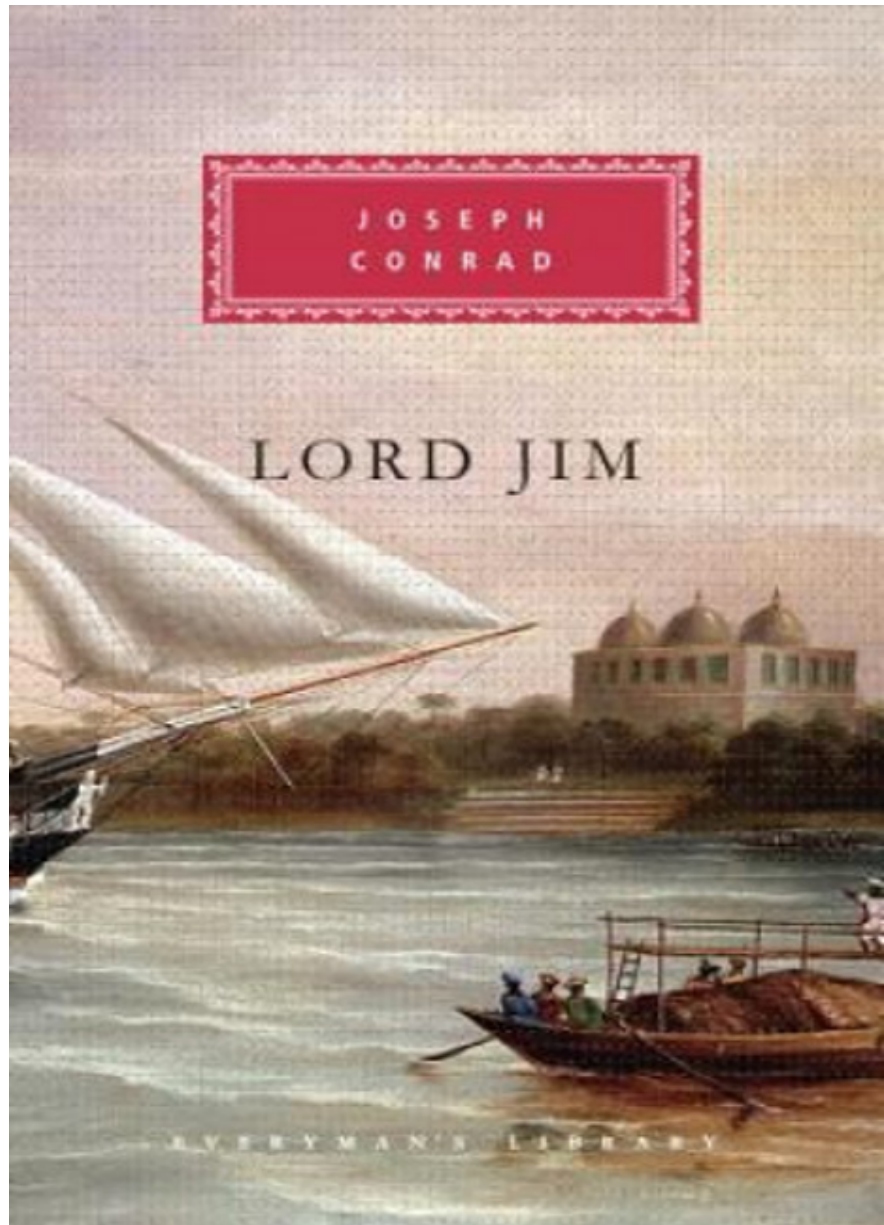

Jim and his crew were taken to court. Jim lost his officer's certificate.

He spent the rest of his life worrying and trying to regain his lost honour. Is this the end of his story? Of course not.

Do you want to find out who Marlow was? Who was the beautiful woman named Jewel to Jim? Why is the island of Patusan so important in this whole story?

Dear Reader, if you want to know Jim's fate, I invite you to read this extraordinary novel.

Zuzanna Kędra, IIIB

The amorous dilemmas of the Bennet sisters

Do you know who Jane Austen was? Have you heard that Jane started writing at the age of 1 Jane Austen was an English writer born in 1775 in Stevenson. She came from a fairly poor family, which derailed her chances of getting married. After moving to Hampshire in 1811, Jane published her first book.

2 years later she published a book called 'Pride and Prejudice'. The novel 'Pride and Prejudice' is about the Bennet family who lived in the village of Longbourn. The couple had 5 unmarried daughters. The eldest, named Jane, caught the eye of young and wealthy young men. She became involved with one of them. What happened to their relationship? What did Darcy really have to do with the story?

Meanwhile, Jane's sister Elizabeth has come to London and met Darcy there. What did her stay in London bring? What happened to one of the younger Bennet sisters who ran away from home? Is it true that she married a handsome officer?

If you want to know the answers to these issues, I encourage you to read this incredible novel.

Zuzanna Szymczak, 3B

HI EVERYONE!

THESE ARE 5 WAYS TO HAVE HEALTHY AND GORGEOUS HAIR

- 1.If you don't use hair conditioners you need to change that. Use hair conditioners that are designed for you. Check the PHA of your hair and choose a conditioner for you. You can use some of the following: humectant protein, emollient. This is the best help for your hair.
2. Use a variety of oils. For example, it could be flaxseed oil or nigella oil. This is important. Oils protect our hair from damage.
3. You should have your hair tied up while you sleep. It can be a ponytail or braid. This way you protect your hair.
4. Don't use high heat when you straighten, dry or wash it. Because it's very damaging to it. I recommend using products that protect your hair from heat.
5. If you want long hair, use a hair growth lotion. A good way is to massage the skin of your head.

This picture shows a woman taking care of her hair

This Picture shows a woman with gorgeous hair

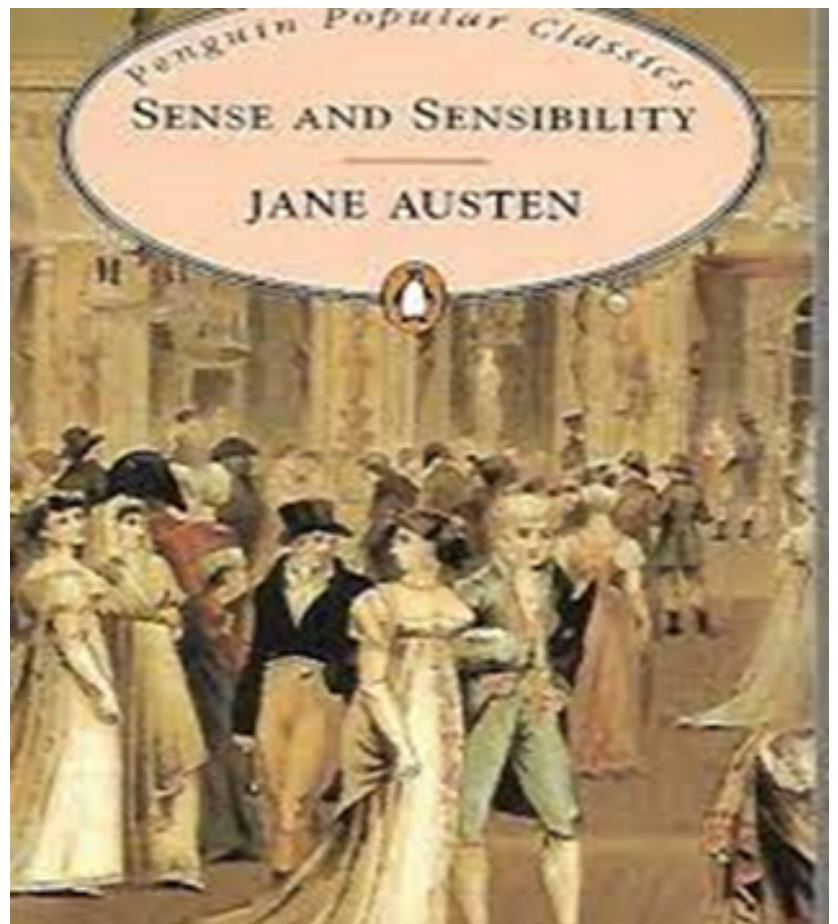

Two women, two faces

What comes to your mind when you hear the name Jane Austen? Have you ever heard of the book 'Sense and Sensibility'?

Jane Austen was born in 1775 in Hampshire. She never married. She accepted one marriage proposal, but changed her mind the next day. She never wrote about the Napoleonic Wars or the French Revolution, but about romance and matchmaking. Her novels have been enduringly popular since her first book was published.

The book 'Sense and Sensibility' is about two sisters who do not quite look like sisters. The first is Elinor, who is calm and beautiful. She can be relied on, particularly for her practical approach and common sense. The other sister is Marianne. She is above all sensitive, but also fascinated by romantic feelings.

This book is completely engaging. It touches on various interesting themes such as romance, marriage and lying. If you like stories about family issues, I fully recommend this book to you. To be honest, I had a hard time saying goodbye to the protagonists.

In the picture there are several people who are dressed in old-fashioned elegant clothes.

The characters were amazingly described, and for me that is important. I read it with bated breath and am now reading it a second time.

If you want to read 'Sense and Sensibility', go to the English library at our school and read it. I wish you an enjoyable reading experience.

Nikola Kubik, Katarzyna Smolarek III
